About me

My name is Viljami Leskelä. I am an enthusiastic and motivated software developer with an education in information and communication technology at OSAO with solid skills in making websites. In the future I'm planning on becoming a software engineer.

Experience

Internship

KoGo Vision   2024

I worked on an Azure web app project using MERN stack (MongoDB, Express.js, React, Node.js). My tasks included working on both front-end and back-end development. I also participated in team meetings and project planning.

Internship

Ylikiimingin Koulu   2023

I worked at Ylikiimingin Koulu. My tasks included fixing laptops, updating software and drivers, writing instructions for teachers on how to use projectors and smart boards, installing an operating system and fixing sound systems.

Summer employee

Rakennusteho   2023

I worked as a construction assistant at Oulun Rakennusteho during the summer. My responsibilities included sorting construction materials and performing various tasks typical to construction sites.

Education

(2022-2024) Vocational school

OSAO, Kaukovainio

I Started studying information & communication technology in 2022 and i finished my education in 2.10.2024.

(2013-2022) Primary school

Ylikiimingin Koulu

I completed my primary school in Ylikiiminki.
